FRAME

The FRAME series combines modern design with outstanding performance. With their rigid exterior, these spas are the closest to a traditional hot tub appearance.

PREMIUM

The PREMIUM series offers a unique range of designs with its removable cover. As beautiful as it is functional, this series is sure to start a conversation.

MUSE

The MUSE series offers unrivaled tranquility with its additional JET hydro-massage experience.

COMFORT

Our COMFORT series provides all our essential features to begin your spa experience such as bubble massage and UVC sanitizing.

URBAN

The URBAN series comes equipped with premium spa technology and features our most intelligent setup yet. Relax while our M-One auto-inflation does the work.

At MSpa we strive to make the best experiences with the most advanced technology accessible to more homes. This is the driving force behind our designs and why we have ensured there is an MSpa to suit each and every person's unique needs.

Discover our latest innovations and finishes to learn why Mspa is the industry leader in providing at home comfort.

PERFORMANCE

HYDROMASSAGE JETS PLUS

Going beyond just comfort, hydromassage provides amazing health benefits for your mental and physical health. Enjoy an immersive at home experience that has been shown to relieve muscle soreness and tension, soothe minor aches and pains, and reduce stress and anxiety.

- A powerful 1100W jet pump offers our strongest water jet system to create the most relaxing massage experiences.
- The jet angle and water pressure can both be adjusted to your personal preference.
- 4 sets of 8 nozzles for multiple people to enjoy the massage.

Hydromassage Jet

Our original Hydromassage Jets are perfect for beginning your hydrotherapy journey. Offering basic hydromassage, our jets aid in reducing muscle aches and pains while relaxing the body and mind. We've removed complex setups by building our jet pumps directly into the spa control. Set up your spa in one go and pack it up for storage and portability with ease.

All Around Bubble

For a truly immersive experience, our Air Jets Massage System creates thousands of bubbles from the bottom of the spa to surround you from all angles. Unlike our Hydromassage jets which are limited to 3-4 people, our Air Jets Massage System can be enjoyed by everyone in the tub at once! Our spas feature variable-speed bubble systems so you can adjust the bubble level based on your personal preference.

Note: the COMFORT / PREMIUM Series spas only have one bubble level.

Bubble Backup

Our Bubble Backup system directly targets two of the most common problem areas causing discomfort. Enjoy a bubble massage for your shoulders and back by positioning yourself in front of the convenient panels on either side of the control box. The bubbles make direct contact with the skin rather than dispersing into the water for a more powerful massage experience.

The Best Filtration System Ever

Our MSpa Direct Current system is our most advanced filtration system yet. Featuring a brand new DC pump with specialized impeller, the system offers stronger water flow and increased circulation speeds of 1800 liters per hour, a 36% improvement to our previous system and superior to current pumps on the market. Although the system boasts stronger water flow, we've cut energy consumption by 30%! Feel peace of mind as our TURBO fan construction pushes foreign objects through with ease and enjoy for years to come as the new x-ring guarantees 10,000 hours of continuous operation.

Whisper Quiet Design

Discover moments of pure tranquility. Every MSpa includes our silent motor! Whether you're deep in conversation with loved ones or looking for some rest and relaxation for yourself, the last thing you need is a noisy motor. We tasked our team with creating a truly silent motor. Our internal control box is surrounded by a spa pool liner to significantly absorb and reduce noise so you can focus on being in the moment.

Portable And Easy to Carry

One of MSpa's greatest advantages is ultra portability. Our patented compact designs are easy to carry and easy to set up or dismantle. We've integrated our advanced control boxes into the spa liner and made them ultra light weight. A built in control box means no fussy extra parts to reinstall every time you move your spa. Transport your spa with ease for road trips or just to get a change of scenery.

Man

We want you to get the most out of your spa! That's why we set out to create spas that make maintenance and operation as simple as possible. Our spas are built to work hard, but work smart, so you don't have to work at all.

It's All In Your Palm MSPA APP.

With our new innovative spa app:

- always in the loop

रेंट्र Smart Filtration

Our intelligent smart filtration system ensures your water stays clean and ready for your next use. While the spa is in stand-by mode, our smart filtration system turns on automatically to filter every 8 hours. Whether you store your spa indoors or outdoors, it'll always be ready to go for your next relaxation session.

Note: Smart Filtration does not replace water changing and treatment. We recommend users to change the water on a monthly basis and treat water on a weekly basis.

<u>|}}</u>| **Heating Timer**

We all know spas can take some time to heat up and sometimes the time to start heating your spa isn't most optimal. To solve this we introduced heating timers. Simply set a time to wake up your spa heater and go about your day as normal. Our timers can be set 1 to 99 hours in advance so you can plan for any occasion.

Our Anti-icing System protects your spa and control box from freezing and damage in frigid temperatures by automatically warming the water to 37.4°F whenever the water falls to less than

33.8°F. The system acts as a safety measure when a storm rolls in or the spa is accidentally left in sub-zero conditions.

M-ONE[™] AUTO INFLATION

Our patented inflation system allows you to set up your spa in one easy step. Press the BUBBLE and UP buttons at the same time to watch your spa magically come together before your eyes. There's no need to install an additional control box and the self-inflation can intelligently monitor pressure to know when to stop inflation. Simply press and go!

Smart Touch

Quick Inflatation

User-friendly

UVC

Powerful UVC sanitation kills over 60 disease causing microorganisms and pathogens without the use of harmful chemicals. Our sanitizing chamber is housed inside the spa's control box and continuously sanitizes water that passes through the chamber. Since you will never come in contact with the UVC light, this setting can be turned on while you are enjoying your spa.

OZONE

Our mid and high end series also feature an additional O_3 generator to target more resistant bacteria. Un cannot be activated while the spa is in use and meant to act a an extra, and more powerful, layer of protection. The O3 generator also aids in lowering the freque v for

AESTHETIC

Build beautiful outdoor spaces and indoor spa oasis. At MSpa we prioritize aesthetics just as much as functionality to create spas that not only work great but look great! Utilizing delicate exterior designs we hope every spa doubles as a stunning piece for your home.

TIMELESS STYLE

We utilized plastic wood panels to recreate the beautiful rigidity of traditional spas without sacrificing any of the portability. Strong enough to withstand water pressure, the pieces lock together to create a rigid frame.The pieces are textured with delicate wood-grain like ripples for an aesthetic touch.

LUXURY COVER DESIGN

We were determined to make our spas stand out and look great. Using a simple liner with a removable cover, we were able to bring our wildest concepts to life without sacrificing on the spas ability to retain air. Our luxury cover spas feature burlap textures, woven designs, and even exotic crocodile patterns to elevate your home.

VIVID PRIN

For a more exciting spa exterior, our printe feeling. The printed leather is eye catching environment. Never one to blend in

SUPERIOR EMBOSSED FABRIC

Our reinforced PVC spas feature embossed patterns for a textured appearance. Ranging from delicate grain to leather like appearances and abstract patterns, there's something to suit everyone's unique style and tastes.

PRINTING FABRIC

leather spas help create a more fun and playful and ensures your spa is the centerpiece of your these spas are here to make a statement.

M - shield [™] ANTIBACTERIAL FABRIC

Clean water is the most essential foundation of a good hydromassage. Our antibacterial fabric is applied to the inner liners of our spas to enhance the sterilization performance. The fabric releases bactericidal components to reduce the reproduction of bacteria by 99%.

*Conforms to ISO 22196:2011

LIGHT UP THE NIGHT

Take your spa experience to the next level with beautiful lighting. Our light up spas feature an LED light strip at the bottom to make your spa GLOW. Translucent fabric elements allow beautiful patterns to shine through for a truly romantic environment for your evening soaks. Switch colours based on your mood and enjoy late into the night.

NON-SLIP BOTTOM

Every detail matters, even the areas no one sees! We created a subtle bump texture on the base of our spas to provide additional friction and grip. The non-slip bottom effectively counters the slipperiness of greasy film and scale formed by microorganisms to prevent dangerous falls.

Laminated Fabric Layer

FRAME **SERIES**

The FRAME series combines modern design with outstanding performance. Luxury wood-like finishes are applied to the spa body for rigidity and to resemble traditional built-in hot tubs while still maintaining the portability you know and love from MSpa.

SHAPED LIKE AN ACRYLIC SPA

Our luxurious textured plastic panels look just like real wood, but are lighter and more resistant to climate changes. We used timeless, neutral colours to create soothing and natural designs. When assembled, our spas look just like a high-end acrylic spa without sacrificing on any of the portability and convenienc

APP CONTROLLED

INFLATED, BUT RIGID

Our ultra stiff DWF material is unlike any traditional inflatable. Tens of thousands of high-strength threads are pulled taut to support the spa from within and prevent stretching while adding superior stiffness. The material allows us to keep the inflatable liners aesthetically thin without losing performance.

ALL-IN-ONE CONTROL BOX

JET CONTROL BOX

Our new OSLO spa is not only stunning, but features the latest in MSpa technology. This beautiful spa packs all the rigidity of a traditional spa while sporting MSpa's signature portability and ease of installation. Enjoy multiple hydromassage jets in addition to our variable air bubbling technology while a beautiful remote controlled light strip adds a sense of luxury, reating unparalleled ambiance.
